SUSTAINABILITY AND IMPACT STRATEGY

ADDITIONAL INFORMATION PROVIDED BY MANAGEMENT

As the largest publicly traded developer, owner, and manager of premier workplaces in the United States, BXP actively works to promote our growth and operations sustainably and responsibly across our six regions.

The BXP Sustainability & Impact (S&I) strategy is to conduct our business, the development, and the operation of new and existing buildings, in a manner that contributes to positive economic, social, and environmental outcomes for our clients, shareholders, employees, and the communities in which we serve.

Our investment philosophy is shaped by our core strategy of long-term ownership and our commitment to our communities and the centers of commerce and civic life that make them thrive. We are focused on developing and maintaining healthy, high-performance buildings, while simultaneously mitigating operational costs and the potential external impacts of energy, water, waste, greenhouse gas (GHG) emissions, and climate change.

BXP and its employees also make a social impact through charitable giving, volunteerism, and public realm investments.

We continue to address the needs of our stakeholders by making efforts to maintain and improve our S&I performance across three pillars: climate action, resilience, and social good. Through these efforts, we demonstrate that operating and developing commercial real estate can be conducted with a conscious regard for the environment and wider society while mutually benefiting our stakeholders.

REPORT OF INDEPENDENT ACCOUNTANTS

Report of Independent Accountants

To the Management of Boston Properties Limited Partnership

We have examined the accompanying management assertion of Boston Properties Limited Partnership (BPLP) on page 6 of this *September 2021 Green Bond: December 31, 2024 Allocation Report* that \$842.5 million, or 100% of the net proceeds, from the September 2021 underwritten public offering of \$850 million of 2.450% Senior Unsecured Notes due October 1, 2033, was used for the financing and refinancing of costs incurred from September 29, 2018 (three years prior to the issuance of the notes) through December 31, 2024, associated with the four Eligible Green Projects (as defined in management's assertion) specified in the *September 2021 Green Bond: December 31, 2024 Allocation Report* on page 7. BPLP's management is responsible for its assertion. Our responsibility is to express an opinion on management's assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants (AICPA). Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements related to the engagement.

Only the information included in the accompanying management assertion of BPLP on page 6 and the *September 2021 Green Bond: December 31, 2024 Allocation Report* on page 7 is part of our examination engagement. The other information on pages 1 through 4 and 8 through 14 on this *September 2021 Green Bond: December 31, 2024 Allocation Report* has not been subjected to the procedures applied in our examination engagement, and accordingly, we make no comment as to its completeness and accuracy and do not express an opinion or provide any assurance on such information.

In our opinion, management's assertion is fairly stated, in all material respects.

MANAGEMENT ASSERTION

On September 29, 2021, Boston Properties Limited Partnership (BPLP) completed an underwritten public offering of \$850.0 million of 2.450% Senior Unsecured Notes due October 1, 2033 (the "September 2021 Green Bond Offering"). The aggregate net proceeds from the September 2021 Green Bond Offering totaled \$842.5 million ("Net Proceeds").

BPLP's management asserts that \$842.5 million, or 100.0%, of the Net Proceeds, was used for the financing and refinancing of costs incurred from September 29, 2018 (three years prior to the issuance of the notes) through December 31, 2024 associated with the four Eligible Green Projects specified in this September 2021 Green Bond: December 31, 2024 Allocation Report.

"Eligible Green Projects" per the "Use of Proceeds" section of the Prospectus Supplement dated September 15, 2021 filed by BPLP with the U.S. Securities and Exchange Commission pursuant to Rule 424(b)(5) are defined as (i) investments in acquisitions of buildings; (ii) building developments or redevelopments; (iii) renovations in existing buildings; and (iv) tenant improvement projects, in each case, that have received, or are expected to receive, in the three years prior to the issuance of the notes or during the term of the notes, a LEED Silver, Gold, or Platinum certification (or environmentally equivalent successor standards). For purposes of this assertion, incurred costs were associated with four Eligible Green Projects that received a LEED Gold or Platinum certification related to (ii) above.

SEPTEMBER 2021 GREEN BOND: DECEMBER 31, 2024 ALLOCATION REPORT

In September 2021, BPLP agreed to sell \$850.0 million of 2.450% Senior Unsecured Notes due October 1, 2033 in an underwritten public offering. This September 2021 Green Bond: December 31, 2024 Allocation Report serves as an update to the previously published September 2021 Green Bond: September 30, 2022 Allocation Report and September 2021 Green Bond: December 31, 2023 Allocation Report.

¹\$3.7M of total project costs for 180 CityPoint have been allocated to our May 2023 Green Bond.

²\$172.4M of total project costs for 325 Main Street have been allocated to our June 2019 Green Bond.

³\$529.4M of total project costs for RTC Next have been allocated to our March 2021 Green Bond and \$19.2M of total project costs for RTC Next have been allocated to our November 2022 Green Bond.

IMPACT METRICS AND EQUIVALENCIES¹

ADDITIONAL INFORMATION PROVIDED BY MANAGEMENT

Impact metrics quantify the environmental results associated with the allocation of "Green Bond" proceeds. The selected metrics and methodology have been informed by The Green Bond Principles Harmonized Framework for Impact Reporting (June 2022). The impact metrics below illustrate the estimated environmental performance of the four Eligible Green Projects outlined on Page 7 that have received or are expected to receive an allocation of the Net Proceeds.

Environmental Impact Metrics	Total Estimated Savings	Estimated Savings Attributable to "Green Bond" Proceeds ²
Energy	62,531 MBtu	37,825 MBtu
Carbon Emissions	5,420 MTCO ₂ e	2,544 MTCO ₂ e
Indoor Water	5,130 kGal	2,298 kGal

Equivalency Calculations

The annual savings associated with the environmental impact metrics based on the allocation of "Green Bond" Net Proceeds to the four Eligible Green Projects are equivalent to the following:

ENERGY

Heating, cooling, and power for 493 U.S. homes^{2,3}

CARBON EMISSIONS

Removing 593 gasoline-powered vehicles from the road annually^{2,4}

WATER

Filling over 3.5 Olympic-sized swimming pools^{2,5}

¹There can be no assurance that the actual environmental performance of the four Eligible Green Projects will not differ materially from the estimates provided.
²Estimated savings attributable to "Green Bond" Net Proceeds have been adjusted to align with the respective percentages of estimated total project costs as outlined on Pages 9-12.

PROJECT PROFILES

ADDITIONAL INFORMATION PROVIDED BY MANAGEMENT

180 CityPoint, LEED CS-Gold

CityPoint is a dynamic district situated on a nearly one-mile stretch of Route 128 in Waltham, MA. Fully placed in service in 2024, 180 CityPoint is a six-story, 329,000-square-foot life science building with six levels of parking covered by an on-site solar photovoltaic system. The final energy model indicates a 27% reduction in annual energy costs and the low-flow plumbing fixtures are expected to reduce indoor water consumption by more than 36%. Additionally, clients will benefit from the superb commuter infrastructure, as 180 CityPoint will offer preferred parking for low-emitting/fuel-efficient vehicles, ample bicycle storage, and shower facilities, and it is located near four bus stops. The project also includes several active design and wellness amenities, which contributed to the achievement of Fitwel Design Certification in 2019. 180 CityPoint earned LEED v3 Core & Shell - Gold certification on November 3, 2023. \$3.7M of total project costs for 180 CityPoint were previously allocated to our May 2023 Green Bond. As of December 31, 2024, 98% percent of the remaining total project costs are funded the September 2021 Green Bond Offering in this updated Allocation Report.

Environmental Impact Metrics	Total Estimated Savings	Estimated Savings Attributable to "Green Bond" Proceeds
Energy	20,866 MBtu	20,449 MBtu
Carbon Emissions	1,180 MTCO ₂ e	1,156 MTCO ₂ e
Indoor Water	660 kGal	647 kGal

180 CITYPOINT
Waltham, MA

PROJECT PROFILES

ADDITIONAL INFORMATION PROVIDED BY MANAGEMENT

2100 Pennsylvania Avenue, NW, LEED CS-Gold

Situated between Washington, DC’s West End and Foggy Bottom neighborhoods, 2100 Pennsylvania Avenue, NW is an 11-story, 480,000-square-foot premier workplace. This "trophy building" features a dramatic curved façade, an iconic glass-enclosed lobby, a rooftop terrace, a fitness center, street-level retail, and three levels of below-grade parking. The building is designed to reduce indoor water consumption by more than 29% and energy costs by more than 33%. The building also includes an on-site photovoltaic system. The site does not require any irrigation and classifies as a brownfield remediation project. The building includes 100% low-emitting flooring, ceilings, insulation, and composite wood materials within the core and shell spaces. Design and Construction Guidelines are available to coordinate client space design in accordance with the LEED Core & Shell requirements. 2100 Pennsylvania Avenue, NW earned LEED v4 Core & Shell - Gold certification on August 2, 2023. As of December 31, 2024, 100% of the total project costs are funded the September 2021 Green Bond Offering in this updated Allocation Report.

Environmental Impact Metrics	Total Estimated Savings	Estimated Savings Attributable to "Green Bond" Proceeds
Energy	9,470 MBtu	9,470 MBtu
Carbon Emissions	821 MTCO ₂ e	821 MTCO ₂ e
Indoor Water	1,048 kGal	1,048 kGal

2100 PENNSYLVANIA AVENUE, NW
Washington, DC

PROJECT PROFILES

ADDITIONAL INFORMATION PROVIDED BY MANAGEMENT

325 Main Street, LEED CS-Platinum

Located in Kendall Square, 325 Main Street is a 16-story, 414,000-square-foot premier workplace that was developed by BXP for Google's newest venture in Cambridge, MA. The project includes three levels of retail/public space and features a redesigned and re-imagined rooftop garden. An integrative design process resulted in energy-efficient systems that reduce energy consumption by 41% and water-efficient systems that reduce water consumption by 38%. To expand upon energy conservation, building-level energy meters were permanently installed to support energy management and identify opportunities for additional energy savings in the future. Exterior sustainability accolades include the revitalization of a brownfield site, rainwater management strategies, light pollution reduction technologies, and the installation of materials that reduce the urban heat island effect. 325 Main Street earned LEED v4 Core & Shell - Platinum certification on September 16, 2024. \$172.4M of total project costs for 325 Main Street were previously allocated to our June 2019 Green Bond. As of December 31, 2024, 52% percent of the remaining total project costs are funded the September 2021 Green Bond Offering in this updated Allocation Report.

Environmental Impact Metrics	Total Estimated Savings	Estimated Savings Attributable to "Green Bond" Proceeds
Energy	12,115 MBtu	6,300 MBtu
Carbon Emissions	668 MTCO ₂ e	347 MTCO ₂ e

ADDITIONAL INFORMATION PROVIDED BY MANAGEMENT

RTC Next, LEED ND & CS-Gold

Located in Reston, Virginia, RTC Next is a 1.0 million-square-foot development featuring two premier workplace towers that are part of a large expansion effort in Reston Town Center. The conjoined towers are part of a master-planned project to be fully developed in several phases and may contain as much as 3.5 million square feet of mixed-use, transit-oriented development upon completion. The RTC Next buildings are adjacent to the Reston Town Center Metro Station, providing a gateway to public transportation. Green building design features are expected to result in a 40% water use reduction and 29% in energy cost savings when compared to a baseline building design. The project contributed to a LEED v4 Neighborhood Development - Gold certification on January 28, 2020 and earned LEED v4 Core & Shell - Gold certification on April 13, 2023. \$529.4M of total project costs for RTC Next were previously allocated to our March 2021 Green Bond and \$19.2 of total project costs were previously allocated to our November 2022 Green Bond. As of December 31, 2024, 8% of the remaining total project costs are funded by the September 2021 Green Bond Offering in this updated Allocation Report.

Environmental Impact Metrics	Total Estimated Savings	Estimated Savings Attributable to "Green Bond" Proceeds
